## It Isn't Your Town--It's You

If you want to live in the kind of a town  
Like the kind of a town you like,  
You needn't slip your clothes in a grip  
And start on a long, long hike.  
You'll only find what you left behind,  
For there's nothing that's really new,  
It's a knock at yourself when you knock your town.

It isn't the town—it's you.

Real towns are not made by men afraid,  
Lest somebody else gets ahead.  
When everyone works and nobody shirks  
You can raise a town from the dead,  
And if while you make your personal stake  
Your neighbor can make one, too,  
Your town will be what you want to see,  
It isn't your town—it's you.

WAKE UP.

Clarksburg should wake up to the fact that some one else is occupying the seat that really belongs to us. This intruder represents out-of-town houses that take away business that should go to our own merchants. When will Clarksburg wake up? As long as we remain asleep the intruder will keep his place. Only when we decide on the policy of co-operation are we fully awake. We have seen the havoc and ruin of neglecting home interest. Now is the time for Co-operation.

## Your Local Merchant Will Extend Credit

Which is Not Obtainable From  
Foreign Mail Order House  
Which Demands Cash.

First—People living in our vicinity should patronize our merchants, because they have the privilege of selecting what they buy. When they buy from a mail order house they are often deceived and lose time and money and temper in receiving what they do not want.

Second—Our brick yards, planing mills, etc., furnish the best building material and the money should be kept at home by buying from them.

Third—Our grocery stores, meat shops, green grocers, fish, oysters and poultry are beyond compare.

Fourth—Our hotels, restaurants, dry cleaning shops and bake shops are all first class, and deserve a liberal patronage.

Fifth—We have a good, clean town good water, lights, good schools, everything that counts for health and happiness, and it should not only be willing, but anxious to "buy in Clarksburg."

Seventh—Buying at home enables the merchant to pay his rent or his taxes, this money stays at home, it helps promote the welfare of the people by furnishing schools, etc.

Eighth—When you buy in Clarksburg your goods are delivered promptly. You do not wait week after week for your goods, as you do when you order by mail.

Ninth—We are now buying "made in America" goods, why not change this to "made in Clarksburg" and help Clarksburg.

Tenth—It is more satisfactory to buy goods from your home merchants for the goods are always subject to your inspection whereas if you order from mail order houses, even if the goods appear to be cheap, invariably the quality proves inferior to the goods offered us by our home merchants.

## PROSPEROUS

City Will Result if All People  
in This Territory Buy Here  
Exclusively.

First—Spend your money with home merchants whom you go to for credit when needed.

Second—It keeps the money in your own community.

Third—It enables your home merchant to keep in business instead of having to buy from mail order houses altogether.

Fourth—It's your duty as a citizen to spend your money at home today, you may have a job from that same man tomorrow. He will be able to pay you your same money back.

Fifth—Clarksburg has good freight rates and merchants can sell you as cheap as mail order houses, you adding express charges or postage and compare the goods.

Sixth—It shows your home merchant you appreciate his business.

Seventh—You ban of those whom

you want to sell your eggs, chickens, peas and potatoes to.

Ninth—Because Clarksburg has good schools, churches and a good place to live in or around and you should prove this by spending your money where you and your children go to school and church.

Tenth—Because if you buy from a home merchant you can exchange goods without the two or three weeks delay and extra expense it takes to exchange goods with mail order houses.

This remarkable photograph was made under the most thrilling circumstances and with great personal risk by the operator who was in an Italian artillery shelter when a huge Austrian shell burst close by. The terrific explosion caused the collapse of the artillery shelter and buried the operator and his camera. He was later found safe and the camera was intact.
